Town of Placentia Launches New APP

Whether you are living, working or visiting, the PLACENTIA APP is a useful tool to explore what Placentia has to offer.

The Town of Placentia launched its new mobile app on Friday May 12, 2017 at the Placentia Bay Cultural Arts Centre. The app serves as a municipal mobile event and information guide for both residents and visitors to the beautiful historic Town of Placentia.

“Our new app is one part of our commitment to improve communications with our residents and tourists coming to our Town” said, Mayor Wayne Power

The app provides quick, easy access to current information such as events, attractions, advisories, where to stay and what to do, and more. Users can quickly connect with town staff and council members, view municipal service schedules and search our business directory. Receive instant notifications from the Town straight to your phone.

Features:

- Events calendar so you know what's on the go
- Public notices, active living information and municipal updates
- Visitor information on attractions, where to eat, stay and shop
- Around town listing of businesses in our community

Updates to the App will continue on a weekly basis as the Town looks to build upon the design and integrate more solutions to better serve its residents and businesses.

The App is available for free download on the App Store and Google Play
