Child Abuse Awareness

October is Child Abuse Prevention Month. Children are the foundation for a prosperous and innovative society, and the foundation for a child's growth and development is established when the community takes responsibility for creating healthy environments where our children can thrive. All children deserve to have a safe, stable, nurturing home and community to foster their healthy growth and development. Child abuse and neglect is an important societal concern that may affect the long-term health and wellbeing of not only children, but also the adults they become. Child abuse and neglect impacts our entire society and our society's future. The Town of Placentia proclaimed the month of October to be National Child Abuse Prevention Month and urged all citizens to work together to help reduce child abuse and neglect significantly in years to come.
